“Cone Zone” tip for the week:

Did you know that there is a new 2009 law about **Studded Pneumatic Tires?** (AB 1971, Portantino) This new law allows the use of pneumatic tires with retractable metal-type studs, year round, as long as the studs are retracted between May 1 through October 31. However, the law prohibits a tire with retractable metal-type studs on a vehicle from being worn to a point that the metal-type studs protrude beyond the tire tread when retracted.
